Dessert Wine

Semillon and Riesling produce most of Australia's 'sticky' wines. We offer a selection of Botrytis or "Noble Styles" where the Botrytis fungus attacks the grapes and increases their sugar levels. These wines show complex characters of lemon, apricot and honey. Cordon or Cane Cut, are where the vine branches (cordons) are cut and the fruit is cut off from the nutrients of the rest of the vine increasing the sugars in the grape, often producing a lighter style than Noble rot wines.

2020 Carmes de Rieussec

Sauternes, France

20 | 78

Brilliant golden colour with pale gold hue. Fairly dense nose, honey and acacia flowers, slightly woody. Full-bodied, generous, well-balanced palate, with a pleasantly sweet finish.

Fortified

When Sherry is made, the fermentation process is allowed to run its course before brandy is added, but when Port is made, brandy is added during fermentation. This means that Sherry is drier and Port normally sweeter.
